SAFETY INSTRUCTIONS

■ Safety Instructions

For your safety,the information in this manual must be followed to minimize the risk of fire or explosion, electric shock, or to prevent property damage, personal injury or loss of life. Explanation of the symbols:

⚠ Warning!

> This combination of symbol and signal word indicates a potentially dangerous situation which may result in death or serious injuries unless it's avoided.

⚠ Caution!

> This combination of symbol and signal word indicates a potentially dangerous situation which may result in slight or minor injuries or damage to property and the environment.

📌 Note!

> This combination of symbol and signal word indicates a potentially dangerous situation which may result in slight or minor injuries.

⚠ Warning!

ELECTRIC SHOCK HAZARD

• If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.
• If the appliance is damaged, it must not be operated unless repaired by the manufacturer, its service agent or similarly qualified persons. Risk of electric shock!

SAFETY INSTRUCTIONS

- Before maintenance, unplug the appliance.
- This appliance must be grounded. In the event of malfunction or breakdown , grounding will reduce the risk of electric shock by providing a path of least resistance for electric current.
- This appliance is equipped with a cord having an equipment-grounding conductor and grounding plug.The plug must be plugged into an appropriate outlet that is properly installed and grounded in accordance with all local codes and ordinances.
- Improper connection for the appliance when using not grounded outlet or when GND terminal of outlet is not suitable with GND terminal of power plug, can result in risk of electric shock. Check with a qualified electrician or service person if you are in doubt as to whether the appliance is properly grounded.
- Do not modify the plug provided with the appliance. If it does not fit the outlet , have a proper outlet installed by a qualified electrician.
- Make sure that the water and electrical devices must be connected by a qualified technician in accordance with the manufacturer's instructions and local safety regulations.
- Pull out its plug from the power socket before cleaning or maintenance.
- Do not use any socket with rated current less than that of appliance. Never pull out power plug with wet hand.
- Please remember to disconnect water and power supply immediately after the clothes are washed.

SAFETY INSTRUCTIONS

RISK TO CHILDREN

- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities or lack of experience and knowledge unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the appliance.
- Cleaning and user maintenance shall not be made by children without supervision.
- Animals and children may climb into the appliance. Check the appliance before every operation.
- Glass door may be very hot during the operation. Keep children and pets far away from the appliance during the operation .

For use in EU contries:

- The appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved.
- Children of less than 3 years should be kept away unless continuously supervised.

SAFETY INSTRUCTIONS

RISK OF EXPLOSION

- Do not wash articles that have been cleaned in, washed in, soaked in, or spotted with combustible or explosive substances (such as wax, oil, paint, gasoline, degreasers, dry-cleaning solvents, kerosene, etc.) This may result in fire or explosion.
- The appliance is not to be used if industrial chemicals have been used for cleaning.

INSTALLATION LOCATION AND SURROUNDING

- All washing and additional substances are to be kept in a safe place out of the reach of children.
- Do not install the appliance on a carpet floor. The obstruction of the openings by a carpet can damage the appliance.
- Keep the appliance clear from heating sources and direct sunlight to avoid plastic and rubber parts to corrode.
- Do not use the appliance in humid environments or rooms containing explosive or caustic gas. In case of water leakage or water splashes let the appliance dry in the open air.
- The appliance must not be installed behind a lockable door, a sliding door or a door with a hinge on the opposite side to that of the machine.
- Do not operate the machine in rooms with a temperature of below 5°C. This can cause damages to parts of it. If it is unavoidable, make sure to drain the water completely from the appliance after every use (see "Maintenance - Cleaning of drain pump filter") to avoid damages caused by frost.
- Never use flammable sprays or substances in the immediate proximity of the appliance.

SAFETY INSTRUCTIONS

INSTALLATION

- Remove all packaging material and transport bolts before using the appliance. Otherwise, serious damage may result.
- This appliance is equipped with a single inlet valve and can be connected to the cold water supply only.
- Mains plug must be accessible after installation.
- Before washing clothes for the first time, the appliance shall be operated once throughout all the procedures without any clothes inside.
- Do not put any excessively heavy objects on the appliance, like water containers or heating devices.
- The new hose-sets supplied with the appliance are to be used and that old hose-sets should not be reused.
- Max. Inlet water pressure 1 MPa.
  Min. inlet water pressure 0.05 MPa.

ELECTRICAL CONNECTION

- Make sure the supply cable is not trapped by the appliance, it can get damaged.
- Connect the appliance to a grounded outlet protected by a fuse complying with the values in the " Technical specifications" table. The grounding installation has to be made by a qualified electrician.
  Ensure that the machine is installed in accordance with the local regulations.
- Water and electrical connections must be carried out by a qualified technician in accordance with the manufacturer's instructions and local safety regulations.
- Don´t use multiple plugs or extension cords.
- The appliance must not have an external switching device such as a timer or connected to a circuit that is regularly switched on and off.
- Do not pull the plug out of the mains outlet if there is flammable gas around.
- Never pull out power plug with wet hands.
- Always pull at the plug, not at the cable.
- Always unplug the appliance if it is not being used.

SAFETY INSTRUCTIONS

WATER CONNECTIONS

- Check the connections of the water inlet hose, the water tap and the outlet hose for possible problems due to changes of water pressure. If the connections loosen or leak close the water tap and get it repaired. Do not use the appliance before the pipes and hoses are installed properly by qualified persons.
- The water inlet and outlet hoses have to be safely installed and remain undamaged. Otherwise, water leakage can occur.
- Do not remove the drain pump filter while there is still water in the appliance. Big quantities of water can leak out, and there is a risk of scalding due to hot water.

RISK OF DAMAGING APPLIANCE

- The appliance is only for home use and is only designed for the textiles suitable for machine washing.
- Do not climb up and sit on top cover of the appliance.
- Do not lean against the door of appliance.
- Please do not close the door with excessive forces. If it is found difficult to close the door, please check if clothes are put in or distributed well.
- It is forbidden to wash carpets.

SAFETY INSTRUCTIONS

OPERATION AND MAINTENANCE

- The appliance is not to be used if industrial chemicals have been used for cleaning. Risk of explosion.
- Hands shall not be inserted into running drums.
- Before washing the clothes at first time, the appliance shall be operated in one round of the whole procedures without the clothes inside. The suggested program is "DRUM CLEAN".
- Never use any flammable, explosive or toxic solvents. Do not use gasoline and alcohol etc. as detergents. Only select detergents that are suitable for the appliance .
- Make sure that all pockets are emptied. Sharp and rigid items such as coins, brooches, nails, screws, stones etc. may cause serious damages to this appliance.
- Remove all objects from pockets such as lighters and matches before use the appliance.
- Items that have been soiled with substances such as cooking oil, acetone, alcohol, petrol, kerosene, spot removers, turpentine, wax and wax removers should be washed in hot with an extra amount of detergent before being dried in the appliance.
- Items containing foam rubber (latex foam), shower caps, water proof textiles, rubber backed articles and clothes or pillows fitted with foam rubber pads should not be dried in the appliance
- Fabric softeners or similar products should be used as recommended in their instructions.
- Never try to open the door forcefully. The door will unlock shortly after the end of a cycle.
- Please do not close the door with excessive force. If it is found difficult to close the door, please check if the clothes are properly inserted and distributed.
- Please check whether the water inside the drum has been drained before opening its door. Please do not open the door if there is any water visible.
- Be careful of burning when the product drains hot washing water.
- Never refill the water by hand during washing.
- After program is completed, please wait for two minutes to open the door.

SAFETY INSTRUCTIONS

- Always unplug the appliance and close the water tap before cleaning and maintenance and after each use.
- Never pour water over the appliance for cleaning purpose. Risk of electric shock!
- Repairs shall only be carried out by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard. The producer will not be responsible for damages caused by the intervention of not authorized persons.

TRANSPORT

- Before Transport:
  - Bolts shall be reinstalled to the appliance by a specialized person
  - Accumulated water shall be drained out of the appliance
- This appliance is heavy. Transport with care. Never hold any protruding part of the appliance when lifting. The appliance door cannot be used as a handle.

INTENDED USE

- The appliance is intended only for home use and for textiles in household amounts suitable for appliance washing and drying. This appliance is for indoor use only and not intended for built in use. Only use according to these instructions. The appliance is not intended for commercial use.
- Any other use is considered as improper use. The producer is not responsible for any damage or injuries that may result of it.
- This appliance is intended to be used in household and similar applications such as:
  - Staff kitchen areas in shops, offices and other working environments;
  - Farm houses;
  - By clients in hotels, motels and other residential type environments;
  - Bed and breakfast type environments;
  - Areas for communal use in blocks of flats or in launderettes.

SAFETY INSTRUCTIONS

ENVIRONMENT

Disposal of old appliances
For use in EU contries

This appliance is labelled in accordance with the European Directive 2012/19/EU on
waste electrical and electronic equipment (WEEE). The directive provides the framework
for the EU-wide take-back and recycling of waste equipment.

The appliance marked with this symbol
must not be disposed of in household waste !

For use in other contries
This appliance doesn't have symbol above. If you want to dispose your appliance,
please contact your local authority or retailer for futher information on collection
and disposal.

INSTALLATION

INSTALLATION

■ Installation

Installation area

> ⚠ **Warning!**
> • Stability is important to prevent the appliance from wandering!
> • Make sure that the appliance should not stand on the power cord.

Before installing the appliance, the location characterized as follows shall be selected:

1.Rigid, dry, and level surface.
2.Avoid direct sunlight.
3.Room temperature is above 5℃.
4.Keep far away from the heat resources such as coal or gas.
Unpacking the appliance

> ⚠ **Warning!**
> • Packaging material (e.g. Films, Styrofoam) can be dangerous for children.
> • There is a risk of suffocation ! Keep all packaging well away from children.
1. Remove the cardboard box and styrofoam packing.
2. Lift the washing machine and remove the base packing.Make sure the small triangle foam is removed with the bottom one together. If not, lay the unit down with side surface, then remove the small foam from the unit bottom manually.
3. Remove the tape securing the power supply cord and drain hose.
4. Remove the water inlet hose from the drum.

Remove transport bolts

> ⚠ **Warning!**
> • You must remove the transport bolts from the backside before using the appliance.
> • You'll need the transport bolts again if you move the appliance , so make sure you keep them in a safe place.

Please take the following steps to remove the bolts:
1.Loosen 4 bolts with spanner and then remove them.
2.Cover the hole with transport hole plugs.
3.Keep the transport bolts properly for future use.
INSTALLATION

Levelling the appliance

⚠️ **Warning!**
- Check with the gradienter if the machine placement is balanced and steady.
- If there is no gradienter, check the balance as per the following method.

1.If it's balanced from left to right.

• Take a long stick, and tie a rope at the end of it. Bind a heavy object at the end of the rope.
• Hang the rope from the top cover of the machine. Adjust the legs till the difference between 'a' and 'b' is less than 1cm.
2.If it's balanced from front to back

• Put the stick at the middle of the control panel, and hang the rope in front of the machine.
• Keep 10cm away from the rope end to the control panel edge. Adjust the legs till 'c' is 3.5~4.5cm ('c' is the distance from rope to bottom of front cover).

Top Cover

Control Panel

Front Cover
INSTALLATION

Levelling the appliance

⚠️ **Warning!**
- The lock nuts on all four feet must be screwed tightly against the housing.

1. Check if the legs are closely attached to the cabinet. If not, please turn them to their original positions and tighten the nuts.
2. Loosen the lock nut and turn the feet until it closely contacts with the floor.
3. Adjust the legs and lock them with a spanner, make sure the appliance is steady.

Raise — Lower — Lock nut — Foot
Connect Water Inlet Hose

⚠️ **Warning!**
- To prevent leakage or water damage, follow the instructions in this chapter!
- Do not kink, crush, or modify water inlet hose.

Connect the water inlet hose as indicated. There are two ways to connect the water inlet hose.

1. Connection between ordinary tap and water inlet hose.

5mm — Clamp nut — Slide bushing
Loosen clamp nut and four bolts

Press the tap end tightly to the rubber ring inside the clamp, and then, tighten the four bolts

Press slide bushing, insert water inlet hose into connecting base

Connection finished

2. Connection between screw tap and water inlet hose.

Slide bushing

Tap with threads and water inlet hose

Special tap for the appliance

14

INSTALLATION

Connect the other end of water inlet hose to the inlet valve at the backside of product and fasten the hose tightly clockwise.

Drain Hose

⚠ **Warning!**

- Do not kink or protract the drain hose.
- Position drain hose properly ,otherwise damage might result of water leakage.

There are two ways to place the end of drain hose:

1.Put it into the drain port.If the drain hose is put into the drain hole on the floor, fix the drain hose on the back of the appliance to prevent water overflow from the drum.

2.Connect it to the branch drain hose of the trough.

🐾 **Note!**

- If the appliance has drain hose support, please install it like the following .
⚠ **Warning!**

- When installing drain hose, fix it properly with a rope.
- If drain hose is too long, do not force it into washing machine as it will cause abnormal noises.

OPERATIONS

■ Quick Start

⚠️ **Caution!**

- Before washing, please make sure it's installed properly.
- Before washing at first time, the appliance shall be operated in one round of the whole procedures without clothes in as follows. The suggested program is "DRUM CLEAN".
1. Before Washing

| Plug in | Open tap | Load | Close door | Add detergent |
Note!

- Detergent only need to be added in "case I "after selecting pre-washing for appliance with this function.

2. Washing

Select Programme   Select function or default   Start up

Note!

- If default is selected, step 2 can be skipped.

3. After Washing

Buzzer beep or "End" on display.

OPERATIONS

■ Before Each Washing

- The working condition of the washer should be 5℃~40℃. If used under 0℃, the inlet valve and draining system may be damaged. If the appliance is placed under condition of 0℃ or less, then it should be transferred to normal ambient temperature to ensure the water inlet hose and drain hose are not frozen before use.
- Please check the labels and the explanation of using detergent before wash. Use non-foaming or less-foaming detergent suitable for appliance properly.
Check the label
Take out the items out of the pockets
Knot the long strips,zip or button

Put small clothes into the pillow slip
Turn easy-pilling and long-pile fabric inside out
Separate clothes with different textures

⚠ Warning!

- When washing a single clothes, it may easily cause great imbalance and give alarm. Therefore it is suggested to add one or two more clothes to be washed together so that washing process can be done smoothly.
- Don't wash the clothes soaked in kerosene, gasoline, alcohol and other flammable materials.

OPERATIONS

■ Detergent Dispenser

I   Pre wash detergent
II Main wash detergent
❀ Softener

Pull out the dispenser

⚠ Caution!

• To prevent powder detergent from remaining in the dispenser under low water pressure, add the powder detergent into the container, then put it into the drum.
• Detergent only need to be added in "case I" after selecting pre-washing for machines with this function.

DELICATE	600	COLOR ALIVE	1000
WOOL	600	WHITE	800
SPORTS	800	JEANS	800
DRUM CLEAN	-	BABY CARE	1000
DOWNLOAD CYCLES	1000	SYNTHETIC	1000

The program (BABY CARE/JEANS/SYNTHETIC) can only be selected by TSmartLife App on smart phones.

UFB Function
- Ultra Fine Bubble (UFB) is an invisibly small Nano size air bubble that is smaller than a fiber gap of cotton.
- UFB deliver surfactants to stains deep inside the cloth. Thus UFB promotes the easy removing stains.
- All washing program with the UFB function.

Wireless Network
Methods to turn on the Wireless Network function
1. Press [SPIN] button for 3 seconds to turn on the Wireless Network function, it can also configure the network or reset the network.

Methods to turn off the Wireless Network function
1. Press[SPIN] and [AROMA+] buttons for 3 seconds to turn off the Wireless Network function.
2. Or unplug the appliance.

Remote Control
This is the switch of remote control, if you want to use your smartphone to control the washing machine remotely, you need to hold [AROMA+] 3seconds. Considering the safe operation of appliance, the smartphone remote control should meet the following conditions:
1. The appliance should connect to the internet;
2. The door of drum should be closed.
Remark:
-. If the door is opened in anytime, the remote control function will be fail.
-. The remote control function is turned off at the end of each cycle automatically, if you want to use remote control function again, you need turn on it again.

OPERATIONS

Instructions to Connection with the TSmartLife App

Before you start, make sure that:

1. Your smartphone is connected to home Wireless Network,and you know the network password.
2. Make sure you are near the home appliance.
3. The 2.4GHz band wireless signal is enabled on your wireless router.

Follow the below steps to enter the remote control state

Download the TSmartLife App

On an app market (Google Play Store, Apple App Store), search for "TSmartLife" and find the TSmartLife app. Download and install it on your phone. You can also download the app by scanning the QR code below.

Register and log in

Open the TSmartLife app, and create a new account to start (you can also register through a third-party account). If you already had an existing account, use the account to log in.

Connect your devices to TSmartLife

1. Please make sure your smart phone is connected to Wireless Network. If not, go to Settings and turn on the wireless connection, select and connect to a Wireless Network. Also please turn on the Bluetooth on your phone. If not, go to Settings and turn it on.

2. Please power on your devices.

3. Open TSmartLife app on your smart phone.

OPERATIONS

4. If a message of "Smart devices discovered nearby" appears, click to add.

5. If no message appears, select " + " on the page and select your device in the list of nearby devices available. If your device is not listed, please add your device manually by the device category and device model.

6. Connect your device to Wireless Network according to the instructions on app. If the connection fails, please follow the instructions provided by the app to continue with the operation.

OPERATIONS

Wireless Network Status Light

🛜	Slowly flashing	Waiting for connection
	Quickly flashing	Connecting
	Quickly flashing solid	Connected to your wireless router

📌 Note!

- Make sure your devices are powered on.
- Keep your smart phone close enough to your device when you are connecting network to your device.
- Connect your smart phone to the wireless network at home, and make sure you know the password of the Wireless Network.
- Check if your router supports 2.4 GHz Wireless Network band and turn it on. If you are not sure whether the router supports 2.4 GHz band, please contact the router manufacturer.
- The device cannot connect to the Wireless Network that requires authentication, and it usually appears in public area such as hotels, restaurants, etc. Please connect to a Wireless Network that does not require authentication.
- It is recommended to use a Wireless Network name that only contains letters and numbers. If your Wireless Network name contains special characters, please modify it in the router.
- Turn off the WLAN+ (Android) or WLAN Assistant (iOS) function of your smart phone when connecting network to your devices.
- In the case that your device connected to Wireless Network before but it needs to reconnect, please click "+" on app Home page, and add your device again by the device category and model according to the instructions on app.

OPERATIONS

■ Programmes

Programmes are available according to the laundry type.

COTTON	Hard-wearing textiles, heat-resistant textiles made of cotton or linen.
SPORTS	Washing the activewear.
BEDDING	This program is specially designed for washing Bedding.
ECO WASH	This programme is suitable for energy saving wash.
MIX 45'	Mixed load consisting of textiles made of cotton and synthetics.
QUICK 15'	This procedure is suitable for washing few and not very dirty clothes quickly.
SPIN ONLY	Spins and drains the water.
WOOL	Hand or machine-washable wool or richwool textiles.Especially gentle wash programme to prevent shrinkage, longer programme pauses .
DELICATE	For delicate,washable textiles,e.g. made of silk,satin,synthetic, fibres or blended fabrics.
DRUM CLEAN	This program is specially set in this machine to clean the drum and tub. It applies high temperature water to make the drum and tub. When this procedure is performed, the clothes can not be added. When proper amount of chlorine bleaching agent is put in, the drum cleaning effect will be better. The customer can use this procedure regularly according to the need.
RINSE&SPIN	Rinses and then spins the laundry, and then drains the water.
STEAM HYGIENE	Washing machine can kill some bacterium, and achieve hygiene effect.
COLOR ALIVE	Washing brightly colored clothes, it can protect the colors better.
WHITE	Specific cycle for white clothes, to avoid color mixing.
JEANS	Specially for jeans.
BABY CARE	Washing the baby's clothes, it can make the baby's wear cleaner and make the rinse performance better to protect the baby skin.
SYNTHETIC	Wash synthetic articles, for example: shirts, coats,blending. While washing the knitting textiles, detergent quantity shall be reduced due to its loose string construction and easily forming bubbles.
DOWNLOAD CYCLES	By using TSmartLife App, you can download addtional cycles to your washing machine,we have limited cycle numbers on the panel, but we have more cycles in the app, for example, we have some cycles in the app, and we can choose one via the app, and the by controlling the knob, we can apply the app cycle to the machine.

The program (BABY CARE/JEANS/SYNTHETIC) can only be selected by TSmartLife App on smart phones.

The wool wash cycle of this machine has been approved by The Woolmark Company for the washing of machine washable wool products provided that the products are washed according to the instructions on the garment label and those issued by the manufacturer of this washing machine.
