Redemption is based on a first-come, first-served basis for models listed in this promotional leaflet, while stocks last. All submissions must be made through the campaign page with complete documents. Terms and conditions apply.

JAPANDI STYLE AESTHETICS
Perfectly adapts to various space styles
 The integrated flat design seamlessly blends into various spaces. Whether placed side by side or stacked, it can be flexibly installed, freeing up living space and make the home environment more harmonious and aesthetically pleasing.

JAPAN QUALITY
Takumi wood-grain panel & weather-resistant materials

10-layer skin-like carved panel
 Using wood grain skin-feel technology, it provides a natural touch while offering anti-glare, scratch-resistant, and stain-resistant features.

Anti-rust & anti-yellowing
 The body features a composite structure, with carefully selected PCM steel plates and imported Japanese coatings. This effectively blocks ultraviolet rays and moisture, providing rust and yellowing resistance, ensuring long-lasting use as if new.

WASHER
TW-T37BZP115MWM(WT)
 • AI Smart
 • GreatWave
 • Color Alive
 • Origin Inverter

GREATSTEAM
99.99%* sanitization
 High temperature vaporizes water and generates hot steam that rises up to fill the whole drum space and contacts every corner of the clothes. Hot steam penetrates deep into the fibers and thoroughly saturates fabrics.

SENSEDOSE™
One fill for multiple washes
 TOSHIBA patented SENSEDOSE™ technology provides accurate and automatic detergent dosing to improve cleaning performance and avoid residues and waste.

HYGIENE CARE
All-round protection for washing environment
 • Ag+ sanitization
 • Drum clean
 • Anti-bacteria gasket
 • Door spray

AROMA+
200%* extra fragrance
 One click to lock scents and freshness. Thanks to TOSHIBA's great washing technology, stains are thoroughly removed and fragrance can be better activated.

DRYER
TD-T37BS90HWM(WT)
 • 6-Layer Lint Filter
 • Hassle-Free Drying
 • Easy to fit
 • Easy to operate

HEAT PUMP SYSTEM
Gently dry clothes at the ideal temperature
 Garment shrinkage and damage are common concerns when using a dryer, especially for delicate garments. TOSHIBA's heat pump gentle drying technology keeps clothes at low temperatures, effectively preventing over-drying and helping maintain the original softness and comfort of garments.

DUAL INVERTER
Ultimate performance and drying experience
 TOSHIBA's inverter compressor and motor adjust the drying speed and frequency to precisely control the temperature, creating ideal drying conditions for your clothes. This not only enhances drying performance but also better protects your garments during the drying process.

HYGIENE CARE
Keeps daily clothes safe & hygienic effortlessly
 It is crucial to keep the daily items we use clean and safe in order to protect ourselves. Hygiene sanitization with UV light can effectively eliminate bacteria and other invisible threats that may lurk deep within the fibers, providing maximum protection for the family.

LUXE CARE
Waterless clothes care expert
 Equipped with an independent steam generation device, it generates powerful small molecular steam, which can quickly penetrate deep into clothing fibers at 360°. With one click, you can start professional drying care and easily care for waterless clothes at home.

TOSHIBA

IH LOW SUGAR RICE COOKER

Remove the unhealthy digestive starch by up to **41%***

Increase resistant starch by up to **79%***

RM 1,153 1.8L

- RC-18ISPMY**
- 3mm 7-layer Bincho Charcoal Pot
 - 3D Heating
 - 17 Pre-programmed Menu
 - Tempered Glass Touch Panel Control

Touch nGO eWallet **RM 50**

POWERFUL INDUCTION HEATING
Induction heating (IH) comes with magnetic power that heat the internal pot itself in the high temperature. The whole pot is heated evenly and quickly to delivers fluffy and tasty rice.

SUGAR-REMOVING BASKET
The basket isolated the unhealthy digestive starch from rice into the water at the precise temperature while still retaining nutrients.

OPTIMAL SIMMERING PROCESS
The process provides the precise temperature and time under 300 pa micro-pressure. The rice is properly cooked to increase the amount of resistant starch (RS), which is not digestible in our bodies so it is not converted into fat or sugar.

3MM 7-LAYER INNER
Super thick with 7-layer inner pot transfers the heat evenly to deliver the fluffy and tasty rice.

* Subjected to type of rices
