IMPORTANT SAFEGUARDS

⚠️
SAFETY WARNING

When using electrical appliances, basic safety precautions should always be followed including the following :

1. Read all instructions.
2. Do not touch hot surfaces. Use handles or knobs.
3. To protect against electrical shock do not immerse cord, plugs, or any electrical parts in water or other liquid.
4. Close supervision is necessary when any appliance is used by or near children.
5. Unplug from outlet when not in use and before cleaning. Allow to cool before putting on or taking off parts.
6. Do not operate any appliance with a damaged cord or plug or after the appliance malfunctions or has been damaged in any manner. Return appliance to the nearest authorized service facility for examination, repair, or adjustment.
7. The use of accessory attachments not recommended by the appliance manufacturer may cause injuries.
8. Do not use outdoors.
9. Do not let cord hang over edge of table or counter, or touch hot surfaces.
10. Do not place on or near a hot gas or electric burner, or in a heated oven.
11. Extreme caution must be used when moving an appliance containing hot oil or other hot liquids.
12. Always attach plug to appliance first, then plug cord into the wall outlet. To disconnect, turn any control to " ⊗ ", then remove plug from wall outlet.
13. Do not use appliance for other than intended use.
14. Use extreme caution when removing tray or disposing of hot grease.
15. Do not clean with metal scouring pads. Pieces can break off the pad and touch electrical parts, creating parts, creating a risk of electric shock.
16. Oversize foods or metal utensils must not be inserted in a toaster-oven as they may create a fire or risk of electric shock.
17. A fire may occur if the toaster-oven is covered or touching flammable material, including curtains, draperies, walls, and the like, when in operation. Do not store any item on top of the appliance when in operation.
18. Extreme caution should be exercised when using containers constructed of other than metal or glass.

IMPORTANT SAFEGUARDS

19. Do not store any materials, other than manufacturers recommended accessories, in this oven when not in use.
20. Do not place any of the following materials in the oven: (that is, paper, cardboard, plastic, and the like).
21. Do not cover crumb tray or any part of the oven with metal foil. This will cause overheating of the oven.
22. Caution-To ensure continued protection against risk of electric shock, connect to properly grounded outlets only.
23. Remove plug from outlet when the appliance is not in use, before putting on or taking off parts, and before cleaning. Allow to cool before handing.
24. Avoid contacting moving parts.
25. For household use only.
26. During operation, press " " can stop cooking.

SAVE THESE INSTRUCTIONS

⚠️
SAFETY WARNING

SHORT CORD INSTRUCTION (DETACHABLE POWER-SUPPLY CORD)

1. A short power-supply cord (or detachable power-supply cord) should be used to reduce the risk resulting from becoming entangled in or tripping over a longer cord.
2. Longer detachable power-supply cords or extension cords are available and may be used if care is exercised in their use.
3. If a longer detachable power-supply cord or extension cord is used:
   • The marked electrical rating of the cord set or extension cord should be at least as great as the electrical rating of the appliance.
   • The cord should be arranged so that it will not drape over the countertop or tabletop where it can be pulled on by children or tripped over unintentionally.
   • If the appliance is of the grounded type, the extension cord should be a grounding-type 3-wire cord.

BEFORE FIRST USE

1. Remove all accessories and packing materials before operating the oven.
2. Wash the rack and grill tray in warm soapy water. Wipe the inside of the oven with a damp cloth or sponge. Blot dry with paper towels to be sure the unit is dry before using it.
3. Place oven on a flat counter or other stable surface. DO NOT OPERATE ON THE SAME CIRCUIT WITH ANOTHER APPLIANCE.
4. Make sure the crumb tray is properly installed before using it.
5. Before working, place the crumb tray under the bottom heating pipes.

For the first time only, set the temperature knob to MAX, the function setting on roast and the timer to 15 minutes. This will burn off any oils still on the oven.
| NOTE	The oven may smoke during this process. This is normal for a new oven and will not last more than 10-15 minutes.

ONE YEAR LIMITED WARRANTY

This product carries a warranty stating that it will be free from defects in material and workmanship for a period of one year from the date of purchase. This warranty is valid for the original retail purchaser from the date of initial retail purchase and is not transferable. Keep your original sales receipt.

IMPORTANT:

1. This warranty does not cover damages resulting from accident, misuse or abuse, lack of reasonable care, the affixing of any attachments not provided with the product, loss of parts, or subjecting the appliance to any but the specified voltage. (Read directions carefully.)
2. This warranty is void if this product is ever used for other than private household purposes.
3. This warranty is void if this product is ever used outside of United State.

If service is required during the warranty period, properly pack your unit. We recommend using the original carton and packing materials.
If additional assistance is needed, please contact customer assistance at:
